From the NGS website.

“Acclaimed plantsman’s ½ acre garden, generously planted with a large selection of rare trees and shrubs. Features inc specialist collection of lilies, many unusual climbers and rare ferns. The colour continues into late summer with cannas, dahlias, berberis, euonymus and tree colour. Surprises around every corner. Lovely views of adjacent Norman Church and surrounding countryside.

Although our cottage is some 250 years old, the garden has mainly been developed over the last 40 years. The half-acre garden is generously planted with a large selection of rare trees and shrubs, many now maturing in size. For the interest of tree connoisseurs, these include: Chitalpa tashkentensis; Picea spinulosa; Ginko biloba; Picea likiangensis ; Pinus strobus ; Acer griseum; Cercidiphyllum ‘Morioka Weeping’; Davidia involucrata 'Sonoma'; Xanthocyparis nootkatensis 'Jubilee'; Prunus serrula; and three Magnolias. Our eclectic selection of unusual shrubs includes Berberis valdiviana and ‘Red Tears;Carpinus fangiana’;Cornus'Venus' and 'Satomi'; Viburnum plicatum ‘Rosace’; Heptacodium miconoides; and a Rosa ‘Paul’s Himalayan Musk’. Other features include a large collection of lilies (many from The Lily Garden in Washington State), ferns and climbers. However it is not just a collection of plants but a cottage garden ‘developed’ by a keen plantsman and his wife! Colour continues into late summer and many garden clubs come as late as September to see the autumn colour. A small nursery keeps the plantaholics happy! The plant list (naming, in order, plants in each border/island bed) comprises about 1000 plant species. An additional attraction is the Grade 2 listed Norman church next door.”

Cheques should be made out to Black Pear Gardening Club and sent to:
